

Perinatal Neuroscience & Skin-to-Skin Contact (Tape Playback)

**January 30, 2007
8:00 to 10:00 AM**

Speakers:

Nils Bergman, MD, MPH, PhD

Senior Medical Superintendent
Mowbray Maternity Hospital, South Africa
Winner, LaLeche Award of Excellence, 2003

Target Audience:

RNs working in Maternal and Child Health area, both inpatient and outpatient settings. Physicians and other interested clinicians are welcome to attend.

Learning Objective:

Upon completion of this program, each participant will be able to:

1. Describe the physiological rationale for skin-to-skin contact in newborn.
2. Define the critical period concept as it relates to early neurodevelopment.
3. Define neuronal plasticity and discuss its clinical implications.
4. Explain the concept of “Kangaroo Mother Care”.
5. Discuss the clinical evidence that indicate the harmful effects of separation and repeated isolation in infants.
